

Darwin Hall
Hectic Red

■ Contractor:
Greswolde Construction

■ Architect:
Bryant Priest Newman

■ Darwin Hall

As there were only a few windows, the brick became a critical element of the design and appearance of the building. It needed to combine a variety of textures and tones to reflect the variety of bricks used on Darwin Park estate. It also had to have a 'handcrafted' quality providing interest and character. Many of the historical brick buildings within Lichfield embodied these qualities and so it was important that the brick on Darwin Hall Community Centre continued this language.
